Flucht und Migration – Einblicke und Hintergründe

15. März 2019, 17:00 – 18:30 Uhr

Georg-Maurer-Bibliothek, Zschochersche Straße 14, 04229 Leipzig

Over 69 million people worldwide have to flee from their home countries. But why? Where do our new neighbors come from? Who are they, what motivates them and what keeps them moving?

Within the international weeks against racism, we will talk about "Flight and Migration" and address, above all, how the topic is portrayed by the media. Finally, conversations with refugees themselves will introduce personal perspectives. We are looking forward to good conversations, new contacts and an interesting intercultural evening.
